

WORLD AUTISM AWARENESS WEEK

To raise awareness of autism children in year's 3 - 6 will be celebrating World Autism Awareness week during March 27th-31st.

There will be an assembly for the junior children on Monday 27th March and a mufti day involving all children, to raise money for Sutton's National Autistic Society, on Friday 31st March. The PSA have generously contributed £100 towards our sensory room and we would like the children to bring in a suggested donation of £1 towards this and to support the work of Sutton's Autistic Society. Donations enable the running of regular groups and support to families.

Why raise awareness of autism in your school?

At least 1 in 100 people in the UK have autism..... so there are autistic people at your school, who you see every day. We know that indifference and hostility towards autistic people and their families leads to social isolation, mental illness and unhappy lives. But we also know that helping young people - and teachers - to understand autism as they grow up will equip them to accept and empathise with autistic people.
