# Timescales For Ordering Uniform

When you place an order for embroidered items, the website will give you a guide as to delivery timescales. July and August are peak times for the school uniform industry as most families with school age children buy new schoolwear. It's the equivalent of December for gift retailers. Bearing this in mind, **we recommend ordering uniform as early as possible, ideally before the beginning of July** (and earlier still for Scottish schools) as this:

- Allows time for it to arrive before you go on holiday.
- Gives you time for exchanges and for ordering extra items if required before the new term begins.

More information for new starters and what to order is available on
