

Week ahead

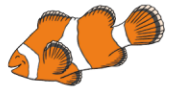

Week beginning 16/3/26

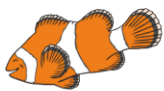

Dear Parents and carers,

We have had a great week doing lots of experiments - We hope your child has been telling you all about it.

We have made slime, some corn flour gloop that seemed to be both solid and liquid at the same time. We have had a cola volcano, magical rainbows and explored gravity using different shaped balls on a giant marble run. Some y6 children came and showed us some of the experiments they had made.

We will now be starting our new topic, Under the Sea, which will bring us up to the Easter holiday. We will be doing bubble printing - be aware your child may come home with a blue spotty face; it is nothing to worry about.

We will be making octopi from toilet roll tubes (If you have any empty tubes, we would be very grateful to have them donated).

We will also be painting pictures of fish and making suncatcher fish to go on the windows, as well as making some jellyfish.

If you have any questions, please come and speak to us at the beginning or end of the session.

Mrs Tickner, Miss Massey, Miss G, Mrs Love
