

The Week Ahead...

Week beginning 13.4.2026

Welcome back after the holidays!

This week we will be learning about plants and what they need to grow. We will make a plant picture and label it. We will start planting our vegetables in the garden and will discuss how we need to look after them.

Phonics

This week we be recapping our phonemes, and will be focusing on reading longer words eg market, finger, garden - remember you can chunk these words up eg mar / ket - you can sound out each part and then put it back together. We will read words ending with 'ing' eg looking, marching. We will revisit the compound words - 2 words that you can put together to make a new word eg car and park -carpark, sun and set - sunset.

Keep practising the tricky words - we are learning to write them as well as read them.

Maths

This week the children will be continuing to develop their counting skills, and focusing on the purpose of counting, remembering the last number in the count tells how many there are altogether. They will practise filling in the missing numbers - what comes before and after a given number.

Reception will be having their disco on Friday afternoon during school time. The children may come to school wearing their own clothes and bring £1.
