

Week ahead

Week beginning 20/4/26

The children settled really well back into Nursery this week. We have been busy inside and outside, painting, creating, planting and playing.

The children have enjoyed exploring our garden area, we are looking forward to seeing it become more colourful over the next few weeks.

If you could send in any small plants or seeds for us to grow in the Nursery Garden that would be really appreciated.

We will be continuing our growing theme, learning about parts of plants, life cycles and how plants look and smell. We will be planting some seeds and watching how they grow.

Reminders

Please remember to return library books and maths games on a Monday. Please also ensure all the pieces are in the maths games. Thank you.

Please ensure children are not bringing in toys from home, if they get lost or broken it can be very upsetting for the children.

If you have any questions, please ask at the beginning or end of session.

Mrs Tickner, Mrs Love, Miss Massey and Miss G
